Kingman County asks contractors to pre-qualify for KCAC project

Kingman County is asking contractors interested in bidding on an upcoming renovation at the Kingman County Activity Center to complete a pre-qualification process.

The renovation to the facility, located at 121 S. Main in Kingman, will include the following: a new main entry that will add approximately 334 square feet of finished space; new concrete entrance ramps, stairs and sidewalk on the east side, with the ramps meeting Americans with Disabilities Act standards; and an update to the building materials on the east facade.

Any licensed general contractor interested in bidding on this project should pre-qualify prior to bidding. This involves completing AIA form “A305-1986 Contractor’s Qualification Statement.” This paperwork will be available starting March 16 either from Arc Document Solutions, 518 W. Douglas, Wichita; (316) 264-9344; or, the form may be completed online by going to www.aia.org (under “Contract Documents,” select “Single-Use Documents” and search for A305-1986). There is a nominal fee.

Please submit completed forms by March 27 to the Kingman County Clerk’s office, 130 N. Spruce, Kingman KS 67068. Questions about the form may be directed to the project architect, Bethany Thimesch, AIA. You may reach her at Studio 54 – Architecture & Design, (620) 532-1219.

Bid documents for the Activity Center project are anticipated to be available April 7. A tentative due date for bids is April 20, with bids scheduled to be opened that day. The county hopes to have the project complete by early July. All project dates are subject to change.
